

# TWO KILLED IN WAUKESHA COUNTY

## TRAGEDIES DIFFER; OCCUR AT SAME HOUR

### WEST ALLIS MAN KILLED AT RAILWAY CROSSING; ANOTHER DROWNED IN PHANTOM LAKE

Two men met accidental death practically at the same hour, but in widely separated parts of the county. Thursday afternoon, one being struck by an interurban car on highway No. 67, (Dousman road) and the other striking to his death in the waters of Phantom lake.

Edward Schreck, 30, 5002 Burnham street, West Allis, was killed instantly at 8:03 o'clock, Wednesday evening, when struck by the east-bound interurban car at the Dousman road crossing.

William C. Grunz, 323 Fifteenth avenue, Milwaukee, was drowned at 8 o'clock, Wednesday evening, when a duck boat in which he was riding capsized in Phantom lake.

**On Way Home**  
Schreck, who operated a store in West Allis, was returning from a visit with a farmer of whom he had purchased a barrel of potatoes. He was traveling on the road to Oconomowoc, and it is believed he failed to see the approaching car, notwithstanding the fact that the view of the track is unobstructed for a considerable distance at that point.

The body was carried 25 rods down the track and was badly mutilated. Officers reported that there were several empty bottles in the small truck, one of which was forced into a wall of the waiting station at the crossing, without being broken.

The deceased is survived by his wife and two daughters. He was for a number of years, employed as a foreman, in Milwaukee. He recently purchased the store at West Allis.

Grunz, according to the officers, showed evidences of having drunk intoxicants. A bottle of liquor was found floating near the boat. He was seen to go out in the boat by several of the Y. M. C. A. boys camping nearby, and a short time later it was noted the boat had turned over. The campers made their way to the spot, turned the boat upright, and located the body lying on the bottom of the lake. It was removed to the shore.

**Peculiar Circumstances**  
Grunz went to Phantom lake to visit friends who reside in a cottage there, but they seemed to take little interest in the death and no attempt was made to notify officials or friends of Grunz's family, according to Coroner Woodhead.

Sheriff Owens and Coroner Woodhead are investigating both deaths and inquests will be ordered. Sheriff Owens stated that he and Coroner Woodhead received scant courtesy when they went to the cottage where Grunz had been visiting.

## U. S. DIRIGIBLE TO VISIT STERLING, ILL.

STERLING, Ill. — Authorization for the flight of a United States army dirigible to this city on Thursday, August 6, during the tri-state reunion and celebration of the American Legion was given Wednesday by Secretary of War Weeks.

A score of aeroplanes, including several air mail ships which will be sent here by the governmental department officers as an educational feature of the celebration, will give the people of northern Illinois, the greatest exhibition of flying ever witnessed in this part of the United States. Exhibition of bottle formations and dare devil stunts will furnish thrills.

## PROSPECTS FOR ENGLAND COAL STRIKE INCREASE

LONDON.—Prospects of a national coal strike at the end of the month loomed larger tonight when the miners' executive committee issued a statement, saying it had decided the miners would cease work July 31, rather than accept the terms to which the owners so far have adhered.

## QUESTION BOYS REGARDING THE TAKING OF A CAR

Claude Mitchell and Willard Hey were arraigned in court today on charges implicating them in the taking of an automobile, the property of the Universal Milking Machine company. The boys are alleged to have accompanied John Schoffer. The machine was returned after a joy ride.

## TRAINING CAMP MAKES VISITORS PROUD OF GUARD

### WAUKESHA BOYS ENJOYING SELVES AND ADDING HONORS FOR THE COMPANY

By J. J. H.

If we were asked to describe the annual encampment of Wisconsin's military forces at Camp Douglas in four or five disassociated words, we should find them all beginning with the letter "I"—intensive, interesting, ideal, instructive, and for good measure what a native of the old soil would call "intertaining".

There should also be added "innovation", since this is perhaps the only season excepting that of the war days of 1917 when all branches of the service have arrived at camp simultaneously for their annual training period. This brings the camp population into four figures and adds variety to parade occasions.

**Waukesha Company Camp**

Waukesha's company being the hospital corps unit, has been assigned to the quiet area at the extreme rear of the range grounds and so is more than 2 miles from the village and a lengthy stroll from the community buildings; on the range, and the centers of evening entertainment. Just beyond the shelter of trees, it has had warm quarters by day and at night like other sections of the camp has been multitudinously visited by the persistent mosquito. However, the issuance of individual nettings for the bulk of every man in camp this year, has defeated the mosquito's teasing efforts after taps.

**Some Rapid Work**  
The house boys are feeling cocky over the fact that they made good on their determination to beat last year's record in pitching the hospital tents for exhibition purposes. This event came late Saturday afternoon and the boys cut last year's time by 2 minutes, and so equaled the regular army record of 16 minutes. The tents were left standing over Sunday. Monday, the take-down took just 40 minutes, this including the time required to truck over from company street to the exhibition site, take down the tents and truck back to headquarters.

**Many Sunday Visitors**  
Sunday, Governor's day, was host day in every mess tent and company area, and the home folks who came to visit were invited to mess with the companies, the necessary extra eats being issued from the general commissariat. Waukesha has corking good eats, they told us, with J. H. Highley, the veteran restaurateur, as chief cook. Among Waukesha's hospitality were Mr. and Mrs. C. W. Hathway, Dr. and Mrs. F. M. Scheele, Mrs. C. P. Hawley, E. D. Counsell and daughter, Miss Dorothy, Mr. and Mrs. J. F. Bergholte, Ralph Bergholte, Wm. Krueger, and a number of men who were company members last year.

**Mrs. Bergholte There**  
Captain Bergholte's wife is spending the entire period of the encampment at Camp Douglas, and Top Sergeant (Continued on Page 5)

**GIRL REGAINS CONSCIOUSNESS AFTER 400-HOUR COMA**  
BELOIT, Wis. (U. P.)—Margaret K. Jellgren, Rockford girl who was struck by an automobile on the morning of July 4th, and who has lain in a state of coma in Emergency hospital, ever since, recovered consciousness after more than 400 hours of obduracy to things that were going on about her. For the past two days she had rallied somewhat, but today she recognized her parents for the first time since she was struck down by the automobile. Physicians now expect her to recover.

## POSTMASTER GENERAL NEW CONSULTS GENERAL ANDREWS

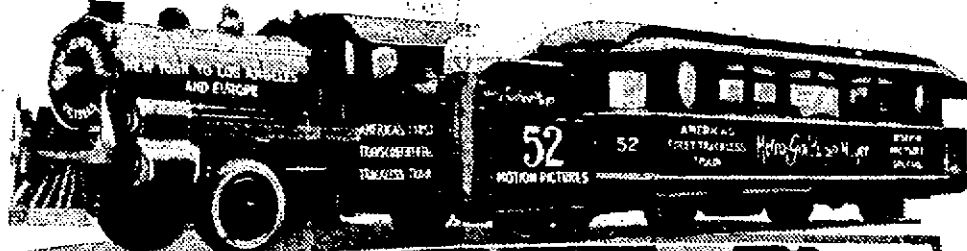

WASHINGTON.—Postmaster General New called on General L. C. Andrews, assistant secretary of the treasury, today to discuss the new prohibition reorganization plan, especially regarding Indiana.

New, it is understood, recommended re-districting Indiana to include it in the territory with the northern judicial district of Illinois and Wisconsin, instead of the Michigan-Indiana zone, as now arranged.

## OPEN NEW UNION STATION IN CHICAGO

CHICAGO.—Chicago's new \$60,000,000 Union station was formally opened today. The station is used by the Pennsylvania, the Burlington, the Chicago and Alton and the Chicago, Milwaukee and St. Paul roads. The presidents of the first three roads and the former president, but now receiver of the latter road assisted in the dedication.

## Novel Motor Train Visits Waukesha

**AMERICA'S FIRST TRACKLESS TRAIN—THE METRO-GOLDWYN-MAYER SPECIAL, ENROUTE TO CALIFORNIA AND EUROPE**

**INTERIOR OF PULLMAN SHOWING BUFFET, RADIO AND DINER.**

## WHEN FOUNTAIN HOUSE WAS IN ITS GLORY; J. C. WALKER, MANAGER, RECALLS OLD DAYS

J. C. Walker and Archibald Walker, brothers, and both of Chicago, are guests at The Spa.

"J. C.", as he was called by friends here, was for ten years, manager of the Fountain Spring House, when that hotel was at its apex as the most fashionable and popular resort in the northwest. Archibald Walker was also connected with the hotel management for a time, and so was another brother, Bradford, who was steward for several seasons and who died last January.

**Vice-President Came Here**  
J. C. Walker talks interestingly of the old days. He said, "I became manager of the Fountain House in 1890, after I had been in the hotel office for two years previously; I

remained manager until 1906. We used to have distinguished people as guests; in those days. Only recently I read in an old scrap-book an item from The Freeman which said that J. C. Walker had been entertaining at luncheon, Vice-President and Mrs. Adlai Stevenson. Mrs. Dewitt Talmadge was one of the notable guests who was always enthusiastic about Waukesha, and there were many others. Every once in a while I meet someone who had been a guest at the Fountain House and they always recall with enthusiasm the good times they had at the hotel.

**First Golf Links Here**  
"I met a man recently who said to me that I was the father of golf in Wisconsin. I disclaimed any such (Continued on Page 3)

## TRAIN MOVES WITHOUT TRACK THROUGH CITY

**WAUKESHA MOTOR FURNISHES PROPPELLING POWER FOR FIRST TRACKLESS TRAIN**

America's first trackless train crossing the continent from New York to Los Angeles, and propelled by a Waukesha motor, passed through this city at nine o'clock this morning.

As the beautiful little train, showing engine, cab and combination Pullman of dining and sleeping car, passed slowly down Broadway, it attracted great attention, and when it stopped at the Five Points a crowd gathered in a few moments. Harry L. Horning, president of the Waukesha Motor company, with E. R. Estberg and C. A. Praeger and a representative of The Freeman, boarded the car at Five Points and rode to the Motor Works where every man and woman was out, full of interest to see this train of adventure bearing one of their own motors.

The street was soon congested and traffic held up by the crowd, which included not only employees at the works but also all the people in that neighborhood, resident or traveling.

**Waukesha Man Joins Party**  
At Waukesha, Jack Ruch of the Waukesha Motor company joined the train to go with it, to the coast and have charge of the engine. He is a skilled mechanic and of course knows the engine thoroughly. He takes with him spare parts to be used as needed.

**Moving Picture Enterprise**  
This first trackless train is a sort of covered wagon de luxe, an adventure which may well result in great changes in traveling. It belongs to the Metro-Goldwyn-Mayer motion picture company, and has as its destination the studios of that company at Culver City, Calif. near Los Angeles. It started from New York a month ago and expects to be on tour for a year, going first to the coast and then sailing for Europe.

The little train is resplendent with (Continued on Page 2)

## APPEARANCE OF SCOTT'S KIN ONLY CHANGE

**INDICATIONS ARE THAT GOV. SMALL WILL NOT INTERFERE AND RUSSELL WILL HANG**

By JAMES T. KOLBERT  
(United Press Staff Correspondent)  
CHICAGO, Ill. — Now hope for a stay of execution to Russell Scott here this afternoon with receipt of word that Governor Len Small has on the way to Chicago. The governor is expected late in the day, but whether he is coming to act on Scott's case was not known.

The state will make a strenuous fight to hang Scott, Assistant State Attorney George E. Gorman, who convicted him, announced.

## JUSTICE DEPARTMENT WILL ACT IN RECENT EVOLUTION LAW SUIT

WASHINGTON.—The department of justice will act for District of Columbia authorities in the suit which has been brought here to test legality of teaching evolution and other sciences in the public schools.

Under Secretary of the Treasury Winston announced today that the case had been placed in the hands of Attorney General Sargent by the treasury department, which is involved because it pays salaries to teachers, here.

The suit seeks to enjoin Frank White, treasurer of the United States and others, from paying school authorities who permit use of scientific texts, citing a law which prevents teaching "disrespectful to the Holy Bible."

## WORKERS ENTOMBED IN TENNESSEE MINE

KNOXVILLE, Tenn.—Nine coal miners were entombed in a mine at Rockwood, Tenn., fifty miles from here early today by a heavy explosion. It is not known whether the miners are dead or alive.

Heroic efforts are being made to reach the men, who had been in the mine only a short time when the explosion entombed them.

The mines are the property of the Roane Iron and Coal company.

## GERMANY SENDS MAN HERE TO VISIT FARMS

Through its representative, Dr. Lichtenberger, the German government will study dairy methods in Waukesha county on Friday, when Dr. Lichtenberger will arrive for an inspection of the local dairy farms. He will be taken about by J. F. Thomas and the Association of Commerce secretary, Dr. Lichtenberger will be accompanied by E. J. Fitzgerald, secretary of the Greater Wisconsin association.

## TERRIFIC EARTHQUAKE PREDICTED JULY 25-26

PAENZA, Italy. — Professor Bendandi, noted Italian seismologist, whose predictions of earthquakes in recent years have been fulfilled almost without exception, today through the United Press predicted a "terrible" earthquake in Alaska and North America on July 25 or 26.

He likewise predicted that a new earthquake would strike Japan on the 30th.

## THREE DIVORCES ARE GRANTED WEDNESDAY

Three were granted divorces by Judge David W. Agnew in County court on Wednesday, all on charges of cruel and inhuman treatment. The decrees were given to John Polz against Thelie Polzen, Grace Springman against Eugene Springman, and Selma Lutz against her husband, Albert.

## M'GOVERN HERE IN INTERESTS OF CAMPAIGN

### HAS TRAVELED THROUGHOUT STATE AND FINDS SENTIMENT IN HIS FAVOR

Francis E. McGovern, Republican candidate for the office of United States senator, to succeed the late Robert M. La Follette, arrived in Waukesha today and conferred with friends and supporters in the interests of his candidacy.

Mr. McGovern reported unprecedented welcome throughout his tour, which embraced the lake cities and cities in the southwestern part of the state.

Mr. McGovern declared himself as favoring the program of economy now being enforced by the national administration and among his platform planks are the following:

**Opposed to League**  
Opposition to the entry of the United States into the League of Nations; conservation of natural resources, including oil, water power, waterways, soil, mineral deposits, forests; reformation of currency so as to make the unit of value more stable; the restoration of the Federal Trade commission to its original purpose and co-ordination of it with other departments of the public service so it may efficiently solve the vast complex and important economic problems submitted to it; opening of the proposed deep waterway from the Great Lakes to the Atlantic, thus to enable Wisconsin farmers and manufacturers to put their products on the market cheaply; adequate defense, especially the maintenance of aeroplane and submarine equipment; an honest, impartial enforcement of the existing liquor laws, leaving to the people full right to change these laws from time to time as they see fit; support of every practicable measure reasonably calculated to restore prosperity to the farmers of our country.

**Sought on Record**  
Mr. McGovern seeks the nomination on his record as district attorney of Milwaukee county and as governor of Wisconsin. He was born in the town of Rhine, Sheboygan county, January 21, 1866, and graduated from the University of Wisconsin with honors in 1890. He was district attorney of Milwaukee county for two terms, and during that time became known as "the fighting district attorney." He served two terms as governor of Wisconsin and for three years was chairman of the executive committee of the governor's conference and directed its affairs. During the war he served as division judge advocate, becoming noted for his efforts in behalf of those who suffered from the imposition of extreme sentences by military tribunals, in most cases being responsible for having these sentences slashed to one-third of their original term. After the war he was general counsel to the United States Shipping board and now practices law in Milwaukee.

**AMERICAN CONSUL IS INVESTIGATING CAPTURE**  
NEW YORK — The Rockefeller Foundation received a cablegram today, stating that Dr. Harvey Howard, head of the epidemiological medical college in Peking, allied with the Foundation, had been captured by assassins near the junction of the Amur and Sungari rivers, in Manchuria.

His son, James, was reported safe. The American consul at Harbin had taken up the case, said the message, while R. S. Greene, of the China medical board, the doctor's superior, had proceeded northward, to investigate the matter.

Dr. Howard is a graduate of the University of Michigan (1904) and Pennsylvania (1908). He was for some time engaged in his professional work at Canton and has been associated with the Rockefeller organization in Peking, since 1911.

**DEMANDS BY U. S. WILL NOW BE MORE SEVERE**  
WASHINGTON — America's demands for a responsible central Chinese government strong enough to protect the lives of foreigners and foreign owned property, will be made more severe following the killing of the American, Morgan Palmer, in the Sungari River district and the seizure of Dr. Harvey Howard.

Official confirmation of United Press reports of the killing by Chinese bandits, of Morgan Palmer, and capture of Dr. Harvey Howard, Americans in the Sungari River district of Manchuria, was received at the state department, here, at 10:30 a. m. today. No new details were given in the official report.

That area, around which has centered the conflict between Japanese and Russian spheres of influence, has long been a kind of no-man's land, and is infested by desperadoes.

Officials see in the Palmer case added necessity for bringing about a strong Peking government capable of maintaining order throughout China, as the present provisional regime is not.

**LOCAL PEOPLE NOT FAMILIAR WITH RATES**  
The public is informed that newspapers, magazines and periodical publications remailed or forwarded require postage at the rate of 2 cents for each two ounces, or fraction of two ounces, said Postmaster Louis Meisinger today.

"It is evident that many are not familiar with the new rates, as shown from the number of mailings being held daily on account of insufficient postage being prepaid thereon," he said. Do not mail matter unless it is fully prepaid, and when in doubt, have the clerk weigh it; also place your name and address on the upper left hand portion of the wrapper, this will enable the postoffice to return your mail in case it is undeliverable.

## GERMANY SENDS MAN HERE TO VISIT FARMS

Through its representative, Dr. Lichtenberger, the German government will study dairy methods in Waukesha county on Friday, when Dr. Lichtenberger will arrive for an inspection of the local dairy farms. He will be taken about by J. F. Thomas and the Association of Commerce secretary, Dr. Lichtenberger will be accompanied by E. J. Fitzgerald, secretary of the Greater Wisconsin association.

TATE TEACHER CLAIMED FOUND IS MYSTERIOUS

RELATIVES RECEIVE CARD FROM COLLINS. HAS NOT YET SHOWN UP

LONDON. — A tearful woman, strained by several days of anxiety, waited today for the homecoming of her husband, Joseph Victor Collins, Stevens Point, Wis., high school teacher.

From the London police, who with the crack detectives of Scotland Yard have been hunting Collins in the masses of the great city, she had heard that Collins had reached Edinburgh. She expected him back this forenoon, but up to noon, he had not appeared.

Card Deepens Mystery Absence of the postcard Collins forwarded from Edinburgh where he had gone for the national education conference had served for a time to deepen the mystery and sharpen the distress of Mrs. Collins. But this afternoon, the post brought her the missive, immensely relieving her.

She attributed the fact that Collins left his baggage behind and failed to communicate sooner with her, to a loss of memory. Emerging from her hotel this afternoon, she told a crowd of reporters: "Personally, I have not heard from father."

Then she burst into tears and climbed into a taxi which whisked her away from the newspapermen, who, with true spirit had hunted high and low around King's Cross station for traces of the professor and had given the Scotland Yard men tips of how to work on the case.

Both Women Puzzled Both women, however, were puzzled that no direct word had come to them from Collins. His daughter thought loss of memory might account for his sudden disappearance.

During the forenoon, a plain clothes man visited the American women and was understood to have assured them as to the good health and safety of Collins.

Despite assurances concerning Collins his wife and daughter were still somewhat mystified and worried because he left his baggage in a taxicab standing in front of a London hotel.

Emerging from her hotel this afternoon, she told a crowd of reporters: "Personally, I have not heard from father."

Seek Office

These two Chicago women are after public office. Mrs. Johanna Gregg (above) a member of the board of education, will run for mayor, and Mrs. Medill McCormick, widow of the late senator and daughter of Mark Hanna, plans to run for Congress.

COOLIDGE TAX CUT PROPOSAL DUE IN AUGUST

CONFERENCES NOW GOING ON WITH SENATOR CURTIS, SECRETARY MELLON, AND OTHERS

By HERBERT B. LITTLE (United Press Staff Correspondent) SWAMPSCOTT, Mass.—A proposal for a tax reduction which would top off \$500,000,000 from the returns of income tax payers probably will be announced informally by President Coolidge before he leaves the Summer White House, early in September, to return to Washington.

Two factors will permit President Coolidge to set a larger figure than heretofore anticipated. They are: 1. The \$250,000,000 treasury surplus on July 1, which was nearly \$100,000,000 more than anticipated.

The President is expected to set a figure much higher than the \$300,000,000 he estimated on a basis of the returns up to June, so that the committee will recognize the change in the situation and act accordingly.

RAPID FIRE REPORT BY PRES. WORTHINGTON

The members of the Kiwanis club were entertained by President J. E. Worthington at the noon luncheon, with a rapid fire report of the experiences of himself and other representatives of the club who were in attendance at the recent big convention of Kiwanians at St. Paul.

APPEARANCE OF SCOTT'S KIN ONLY CHANCE

(Continued from Page 1)

Two new attorneys for Scott are gathering testimony which they say will throw doubt on the testimony that Scott murdered Joseph Maurer, drug clerk. The attorneys announced that Governor Small had granted them an interview for today, the time and place to be announced later.

Will Not Interfere Indications from Springfield were that the governor would not interfere and that Russell would hang at sunrise tomorrow unless his brother, Robert, appears.

Mrs. Catherine Scott, Russell's wife, and his father, Thomas Scott, are concentrating in the hunt for Robert. Last night Mrs. Scott sent two appeals over the radio, hoping against hope that Robert would be listening in and answer her plea to surrender.

Speaking from a station at Elgin, Ill., Mrs. Scott, a slight, pretty woman nearly 30 years old, cried out: "Robert Scott, if you are within sound of my voice, if any of your friends should hear my appeal and tell you, if you should read of your brother's plight, please come back. Come back and tell the truth of what happened that night, the story that only you can tell, the story that may save your brother's life."

Mrs. Scott's cheerfulness surprised the guards. "I have hope, I feel confident I will get a reprieve and a chance to prove my innocence," he said. "Only I hope I don't have to wait until August, the last minute like I did last week."

Russell's shuddered as he recalled the tragic vigil, and the relief that came some five hours before the thud of execution when Small gave him a week's stay of execution.

Granted on Fake The stay was granted on the strength of a fake telegram signed "Robert Scott" proclaiming Russell's innocence and promising to surrender.

Thomas Scott sent word from Detroit that several clubwomen of that city are on the way to Swampscott, Mass., to urge some action by the president.

Indicative of Governor Small's attitude is a message sent by his secretary, George Sutton, to Miss Maude Gauthier of Sandwich, Ont., who has been working in Russell's behalf.

No eleventh hour circumstances will halt the execution this time; it is a matter of writing this to you, but it is a fact," Sutton's letter said in part. "We'll see," was Russell's comment on Sutton's letter.

MILWAUKEE PRODUCE

Eggs—Firsts 31@31½; run of market 28½@29½. Butter—Tubs 42; standards 41; extra firsts 30@40; firsts 37@38; seconds and lower 32@35.

SENTENCED TO DIE IN JUNE, FORGOT ABOUT IT

OKLAHOMA CITY, Okla. — Somebody forgot all about Johnny Washington, negro murderer, in the death cell at McAlester, and Johnny, who, the state said, must die June 19, still is alive.

Johnny might have lived indefinitely had not Jackson county residents investigated his case. They asked Governor Trapp if Johnny had been executed and Governor Trapp did not know.

The criminal court of appeals was asked about the case and no appeal was on file there. The penitentiary was called. "Sure, Johnny still is here," the secretary to Warden Key said.

OSHKOSH TO VOTE ON ORGANIZED CHARITY

OSHKOSH, Wis.—Whether Oshkosh is to continue organized charity under the system in operation at present is to be decided by a referendum vote of municipal organizations. Reported dissatisfaction with the Oshkosh Welfare Association which now conducts a "community chest" prompted the canvas for public sentiment. A number of clubs have already endorsed the system.

MAN DIES FOLLOWING AUTOMOBILE ACCIDENT

MILWAUKEE — Charles Drager, 60, died at a hospital here today from injuries received when an automobile ran him down while crossing a city viaduct here last night.

BADGER BRIEFS

APPLETON—Anton Daehn is under arrest here charged with reckless driving as a result of an accident in which B. J. Bescha was seriously injured. Bescha was unconscious 18 hours. Police say Daehn drove from the scene of the accident without offering assistance.

STOUGHTON—Minard Kelly, 5, is not expected to recover from injuries suffered in an automobile wreck. He has a compound fracture of the skull and concussion of the brain, according to physicians.

BELOIT—Lawrence Hevey was arrested in Municipal court here while waiting for a warrant to be issued for arrest of another man on information he had supplied. Beloit police took him into custody at request of Freeport, Ill., authorities on a charge of obtaining goods under false pretenses.

FOND DU LAC—A new alarm system has been installed at the Wisconsin industrial home for women at Taycheedah as result of numerous escapes recently. The system is similar to the one in use at the state penitentiary.

Fish in the Galilee The Sea of Galilee swarms with fish belonging to the general chromis, barbus, raposa, discognathus, nemachilus, menidia and starias.

NEVER BE WITHOUT IT for it immediately eases sudden, severe, colicky pains and cramps in stomach and bowels, deadly nausea and weakening diarrhoea. For children and grown-ups use

CHAMBERLAIN'S COLIC AND DIARRHOEA REMEDY. Take it with you when you travel. Keep it always in your home.

Bridge Falls

A 174-foot bridge span collapsed and dropped forty feet into the Verdigris river, near Coffeyville, Kas., when they tried to move a thirty-ton oil well drill across it. Two men were drowned and three others seriously injured.

TRAIN MOVES WITHOUT TRACK THROUGH CITY

(Continued from Page 1)

black and gold paint on the exterior and bears enough printed legends to let the countryside know what it is and whither it is going. The interior has every luxury of drawing room, dining room, observation car and kitchenette. It is lighted, heated and ventilated electrically and has hot and cold running water. There is even a radio equipment for entertainment. It possesses, moreover, an auxiliary motor of sixty horse-power of its own, and is accordingly capable of proceeding under its own power over excessively difficult roads where dismemberment of the train is deemed advisable.

However, no bad roads have been encountered so far. "We have had fine roads all the way from New York," said Morris Abrams, who is a member of the party on the train, "and the roads in Wisconsin are

wonderful. We make about thirty miles per hour." Eddie Carrier is conductor of the train, William Parsons is engineer, and "Smiling Sunshine" the porter is an important member of the party. Amusing instances of the interest shown in the train are reported everywhere. In East Liberty, a suburb of Pittsburgh, an entire audience left the theater to see the train. Excited people, it is said, have run to their porches half dressed in order to catch a glimpse of it, while men being shaved in barber shops ran to the door with lather on their faces.

Much curiosity is manifested in the smoke which pours out of the funnel, wagers being frequently made in the crowds that collect about it as to the kind of fuel the locomotive uses.

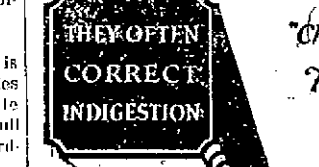

The train went from here to Mukwonago, then to Beloit. It expects to reach Rockford, Ill., tonight. The train and its crew were amply photographed while in this city. Mr. Morning took some moving pictures

GRANDSTAND COLLAPSE MARS WYOMING RODEO

CHEYENNE, Wyo. (U. P.)—Brain and brawn, the skill and cunning of both man and beast, continued to clash as in frontier days here today. The rodeo was marred yesterday, when a sixty-foot section of the arena collapsed, piling 300 persons into a tangled mass.

Mrs. Fred Lesack, Lincoln, Neb.; Claude Newlin, Oklahoma City, Okla.; and Harry G. Hutchinson, Beaumont, Texas, received broken legs in the crash. A score more received minor injuries. A few minutes after the accident the crowd was calm and 11,000 throats were cheering as Mike Hastings threw a steer in 10-4-5 seconds, a record for the year.
